

TM/MAX4 Pulverizer

UNLEASHING THE NEXT LEVEL OF PULVERIZING

Introducing the TM/MAX4, our updated pulverizing unit designed with expanded capacity and improved features. With a capability to handle grinding from 2KG to 4KG and an enhanced motor, this unit ensures reliable and efficient operations. For added versatility, it comes with adaptors suitable for 1kg and 2kg grinding barrels.

KEY FEATURES

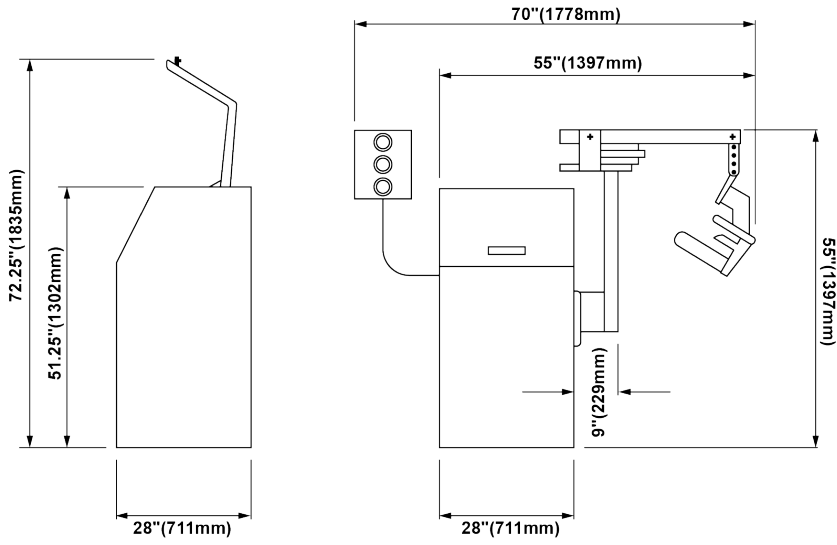

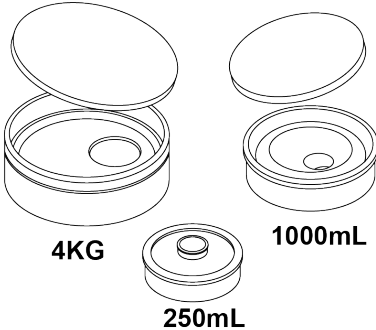

- **Broad Grinding Capacity:** Suitable for grinding barrels ranging from 2KG to 4KG.
- **Barrel Adaptors:** Includes adaptors to accommodate 1kg and 2kg grinding barrels.

- **Upgraded Motor:** Features a more powerful motor designed for consistent performance.
- **Easy Access & Clamping:** Equipped with a pneumatic clamping system and a lightweight aluminum door for straightforward operations.
- **Sound Dampening:** A modular frame designed for reduced operational noise.
- **Ergonomic Design:** Frame shaped for operator comfort during barrel inspection.
- **Streamlined Lifting:** Opt for one or two optional air hoists to simplify the barrel lifting process.
- **Customizable Setup:** Comes with leveling feet and an adjustable electronic timer panel.

TM/MAX4 Pulverizer Technical Specifications

WEIGHT :	950lb - 1402lb (432Kg - 636Kg)
POWER :	3 PHASE / 60Hz, 5 or 7.5HP MOTOR SINGLE PHASE / AND/OR 50Hz MOTORS AVAILABLE PLEASE SPECIFY AT TIME OF ORDERING VOLTAGE OPTIONS: 208, 220, 230, 240, 380, 415, 440, 460, 480, 575, 600
CONFIGURATIONS :	STANDARD SINGLE GRINDING BARREL (50mL TO 4Kg) (NOT RECOMMENDED FOR REGULAR GRINDING OF 2Kg SAMPLES AND SMALLER)
DIMENSIONS : NOTE: ALL DIMENSIONS ARE NOMINAL AND ROUNDED FOR GENERAL REFERENCE	IMPORTANT NOTE: THIS MACHINE HAS A PNEUMATIC CLAMPING SYSTEM WHICH NEEDS COMPRESSED AIR TO OPERATE  <p> 70" (1778mm) 55" (1397mm) 72.25" (1835mm) 51.25" (1302mm) 28" (711mm) 9" (229mm) 28" (711mm) 55" (1397mm) </p>
AVAILABLE GRINDING BARRELS: (SOLD SEPARATELY)	 <p> 4KG 1000mL 250mL </p>
